Carlos Aldaravi

Multimedia Engineer

Experience

- 01/23 - now **FullStack Developer** /Freelance
I decided to leave PHP and move forward to React and Node, I'm working for a client developing as fullstack a webapp using the stack Next (React) and NestJS (Node) (both with Typescript). This webapp is built for trainers and final users where the first group can create a session that could be assigned to the second one. URL: <https://trainsegrity-frontend.vercel.app/>
- 04/21 - 12/22 **FullStack Developer** /Inbenta
Working as 100% remote with JavaScript and VueJS on Frontend and PHP on Backend. All tasks managed by Jira. Use of GitLab to work with projects. All written communication and documentation in English. Daily in Spanish and monthly also in English.
- 08/20 - 04/21 **Backend Developer** /Z1
Working as 100% remote with NestJS (NodeJS), GraphQL, PostgreSQL, Prisma, Jira, Everhour. The main programming language was TypeScript.
- 01/19 - 07/20 **FullStack Developer** /Conwork
The main programming language of the company is PHP but we have had some projects in which I have had to work in Angular, Node and Vue.
- 07/18 - 01/19 **Internship** /Conwork
I did my internship in this company for 6 month, I programmed for 4 months with PHP and 2 month with JavaScript in NodeJS and Angular.

Education

- 2015 - 2019 **Multimedia Engineering** University of Alicante
Last year of university has consisted of creating an application by groups formed by 5 members. My group and I did an application similar to info jobs. Most of my work in the team has been backend although I have also touched some frontend to implement notification system with real time sockets and messaging system. We have used as technologies, Angular, NodeJS with Sequelize as ORM, MySQL and Mongo (for logs and messages), Elastic-Search and Grafana.
The url of the website is <https://kwee.ovh/>
About my final degree work, I did a water sports school PWA. I decided to do it with this technologies: VueJS and Tailwind on frontend, NodeJS (NestJS) on backend and PostgreSQL as database. I deployed the backend in Heroku and the frontend in Netlify both with CI/CD. The url of the website is <https://ocean-platform.netlify.app/>
GPA: 7,8/10

Certifications

04/2023	Next.js and React - The Complete Guide 25 hours	Udemy
02/2023	React - The Complete Guide (incl Hooks, React Router, Redux) 58,5 hours	Udemy
12/2022	Mastering React 13 hours	CodewithMosh
07/2021	Advanced Javascript 6.5 hours	Udemy
06/2021	Writing Secure PHP Code 4.5 hours	Udemy
01/2021	Best practices for code writing 3 hours	Platzi
12/2020	Professional Git y Github course 6 hours	Platzi
03/2020	NestJS: Zero to Hero - Modern TypeScript back-end development 6.5 hours	Udemy
01/2019	Angular: real time applications with Sockets and REST 8 hours	Udemy
11/2018	TypeScript 6,5 hours	Udemy
11/2018	Node: from 0 to expert 19,5 hours	Udemy
08/2018	Git + GitHub 7 hours	Udemy

Honors & Awards

10/2017	Award By the company Dinapsis to the project carried out in group in the Hackaton of Tourism that made the University of Alicante in the headquarters of Torrevieja.	Hackaton
03/2017	Award By the company AdSalsa to the project carried out in group in the Hack For Good organized by the University of Alicante together with Telefónica.	Hack for good

Other Info

I am a person who likes to learn and overcome challenges, passionate about new technologies and the digital age. I like sports, especially those that have to do with the sea and sailing. I also like to travel and meet new places, people and cultures. During the years I've been working as a kitesurf instructor. I've been able to travel to a lot of countries in the world. I'm passionate about the sea and kitesurfing is my favourite hobby. I would like and I'm able to learn new skills and new languages, knowledge is everything. I really enjoy programming Javascript and especially with any of its frameworks Vue, React or Angular.
